On the 12th of March, 1861, just be fore the attack was made on Fort Sumter by the rebels, the Cincinnati Gazette Girens & call 201

"It is not to be doubted, however that the evacuation of Fort Sumter, while greatly diminishing, if not entirely removing, the danger of civil war, would sinclair's single Acting, Non-Free-accomplish more than any policy that Single Acting, Comeined Hydraulic and Force could be adopted to weaken the strength PUMP. Patented June 6, 1871. of the secessionists of the border States, and strengthen the Union feeling throughout the entire South. We are not prepared to dispute the wisdom of the Administration in a measure looking to the sustaining of, and in an ultimate peaceful adjustment of, our difficulties."

We are now prepared to fill orders, or put in these pumps on short notice, and guarantee entire satisfaction, and would call the attention of the public to the following advantation of the public to the following advants.

"That enough, however, seems to be definitely shown to prove the steps to be not merely justifiable, but wise and unavoidable."

the cheapest Pump in use.

2d. As the stock is galvanised wrought iron it will neither crack from the effects of the new new decay of rust.

menced, the Gazette said:

"While, therefore, the policy of main- THIS PUMP CANNOT FREEZE, taining the Union by force may not be admitted, it is the duty of the President, water falls to its level in the chamber, which until the people who possess the sole power to divide that which they united shall act in the premises, to execute the as the water comes directly from the bottom

shall act in the premises, to execute the laws."

Here is an admission that the people possess the power to divide the Union and recognize secession as an accomplished fact." to as and add to to ron rods and so arranged that while it is

Fall Hats and Bonnets

Are unchanged in shape, and, in the vents rust and makes but little friction. This Are unchanged in shape, and, in the election, are as ugly as possible. All the grace is given to them by the milliner, and, if she is destitute of that necessary giff, her clients suffer. They remind one constantly, irreverent though it may be, of the prayer of a famous old descon: "Oh, Lord, of myself I am worse than nothing; it is only the gift of Jesus that makes 'em swally me."

The round crowns, with straight, nar row brims, are the popular style, the

The round crowns, with straight, nar row brims, are the popular style, the crown soft and composed of silk or tarry velvet, the brim which is variously turned up at the side, front, or all round, faced or made wholly of Lyons velvet. When the brim is raised on one side, it is always mounted high, with a velvet bow, which is really the most important part of the decoration, although lace, feathers and flowers are sensually and indiscriminately added.

The round crowns, with straight, nar the down strake of the handle, and thus avoids the heavy lift required in the double acting Pump.

10th. By attaching a short hose, a stream may be often as do to advantage in watering gardens and have waching windows, cleaning buggies, excipgioning fires, or clevating water. We recognize the fact that it requires more power to elevating water from a deep than a shallow well. But as her as possible to obvious the fact that it requires more power to elevating water from a deep than a shallow well. But as her as possible to obvious the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water from a deep than a shallow well. But as her as possible to obvious the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevating water. We recognize the fact that it requires more power to elevate the fact that it requires more power to elevate the fact that it requires more power to elevate the fact that it is always mounted in the down straight and thus avoids and the same and the same and the same and the sa

although lace, teathers and flowers are generally and indiscriminately added.

The most elegant hate are those trim med only with velvet, and a long, real ostrich plume, the cost of which, however, puts them out of the reach of all but the wealthy.

The fashionable bounct has a large crown and a small brim turned up as a comet in front. It was very much worn in straw last summer, and lattes who have fine Tuscan or English straw bonnets, have fine Tuscan or English straw bonnets, have had them prepared for fall, with listle expense, by liming the brims with velvet, renewing the flowers and adding a feather tip to the lace, from last winter's dark velvet or beaver boanet.

Very fine felt and beaver laws and bonnets are imported this season in all the new dark shades of color, particularly brown and sage and brown green. These are selected to match the costume, and bound and trimmed with velvet and feather, elso to match.

If you want a pump guaranteed to give satisfies well and them prepared for fall, with listle expense, by liming the brims with velvet, renewing the flowers and idding a feather tip to the lace, from last winter's dark velvet or beaver boanet.

Farm for Sale.

Farm for Sale.

The wide well was a water from a deep well with less power than any submerge or varely force to many in exploying the pump in existence. This Pump is easily adapted to supply water to stoam mills, and for transferring the contents of vats in tanneries is unamorphic to supply water to stoam mills, and for transferring the contents of vats in tanneries is unamorphic to supply water to stoam mills, and for transferring the contents of vats in tanneries is unamorphic to supply water to stoam mills, and for transferring the contents of vats in tanneries is unamorphic to supply water to stoam mills, and for transferring the contents of vats in tanneries is unamorphic to supply water to stoam mills, and for the wealthy of the wealthy of the worn in extra from a deep well with less power than any submerge or variety force to make yo

vet and feather, also to match.

In Summit township, consisting of

E I G H T Y - T W O A C R E S.

There are fifty acres of cleared, and the balance good timber land, the place is well want is before his eye will possess the same variety in his descriptions and exhibit apparently an imagination as boundless as the range of nature in the scenes, he records; whereas he who scenes he records; whereas he who tracks in his imagination will soon find his mind circumscribed to a few images, and the repetition of these will sooner or later produce monotony.—Scott.

EASTERN WORK,

The valids Don't Despair!
Thousands have found reflet, and thousands will turn to this medicine, after exhausting their purses and patience in search of health.

Giddiness of the head, duliness of the mind, fintid breath, coated tongue, loss of appetite, pains and weakness in the stomach, while remains a stomach, while remains a stomach, while remains of the liver, vellowness of the stomach. petite, pains and weakness in the stomach, enlargement of the liver, yellowness of the ekin, constant fever and thirst, with a total disretish for business, pleasure or any kind of employment. Fanancy's Panacua, if taken and persevered in for a few days, will remove this, whole class of symptems. The fluids of the body become pure, and mind clear, the stomach strengthened, the lengue clean, the appetite improved, and the whole system so benefitted that disease, in oad weather, is less liable to afflict you.

Blood Cleanser, or Panacea.

At a medicine for children, the Panacea is in every way, calculated to take the place of in every way, calculated to take the place of the endless variety of drugs which are annually sold for that purpose, and which are eften very injurious. A medicine which possesses the qualities of a cathartic as well as a mild alterative, and which is capable of arresting disease without the least injury to the thild, is of incalculable value to every mother. As a cathartic, it is very effective, yet it does not, if given in proper quantities, cause nauses or distress to the stomach or bowels. It is very pleasant to the taste, which is a very important feature for a medicine for very important feature for a medicine for children. As a PREVENTIVE of disease it is unprecedented, as it acts directly upon the digestive organs and the blood. In all scrofnlous diseases, it is the most effective medicine ever offered to the public, and, if

given regularly and perseveringly, those eruptive diseases so common to children may be entirely eradicated. be entirely eradicated.
